# NZC Hydrographic Surveying

This course is designed to expand on recognised hydrographic surveying skills.

## WHAT YOU'LL LEARN

- Understanding and applying tidal and depth measurement theory to work.
- Using positioning and hydrographic surveying principles to complete surveys.
- Applying practical surveying, communication and mathematical skills for surveying under supervision.
- Applying health, safety, and environmental practices and complying with legislative requirements when carrying out work.

## HOW THE COURSE IS DELIVERED

This programme is assessed on-job and is completed through workbooks.

## ENTRY REQUIREMENTS

The learner must also be employed in the hydrography industry and be exposed to the relevant skills covered. The learner must have NCEA Level 3 Mathematics and English or equivalent skills and knowledge as well as Survey measurement and software operation skills. It is recommended the learner have good oral, written and interpersonal communication skills.

## TRAINING PATHWAYS

Graduates will have a nationally recognised qualification to prove they have the specialised skills to competently work in hydrography.
