# NZC Infrastructure Works

**This programme is the entry point into the infrastructure industry. Learners gain practical skills and knowledge needed to correctly, and safely, work on an infrastructure worksite. Designed for those with little to no industry experience who want to enter in the infrastructure industry.**

## WHAT YOU'LL LEARN

This programme covers:

- Knowledge of the health, safety, and environmental requirements to work safely and responsibly with others
- Following instructions and organisational procedures to carry out basic infrastructure works activities

## HOW THE COURSE IS DELIVERED

On-job assessment through workbooks which are printed and provided to you, or online learning and on-job assessment through the Connexis Learning Management System (LMS). You will receive a login to access the resources.

This programme is also available through the free eLearning mobile app, Totara. With the app, you can quickly and securely access your eLearning programme, courses, and assessment activities through your mobile device.

## PROGRESSION PATHWAY

This entry-level qualification will provide the foundation skills for a career in civil Infrastructure. Once completed, the learner is able to start working toward an NZ Certificate in Infrastructure Works Level 3, which can lead on to an apprenticeship.

## ENTRY REQUIREMENTS

Must be employed in the infrastructure industry with exposure to gain the relevant skills covered.
