# NZC Infrastructure Works

This course is designed to recognise the foundational skills in infrastructure operations, equipping learners with the knowledge and skills required across a range of standard infrastructure worksites.

With the industry contexts available, learners will gain foundational skills and knowledge to complete the programme in their chosen industry area.

## WHAT YOU'LL LEARN

This programme covers:

- Applying health and safety procedures during work operations.
- Following work procedures and complying with environmental quality requirements.
- Completing infrastructure work operations to the required specifications.

## HOW THE COURSE IS DELIVERED

On-job assessment through workbooks which are printed and provided to you, or online learning and on-job assessment through the Connexis Learning Management System (LMS). You will receive a login to access the resources.

This programme is also available through the free eLearning mobile app, Totara. With the app, you can quickly and securely access your eLearning programme, courses, and assessment activities through your mobile device.

## ENTRY REQUIREMENTS

Must be employed in the infrastructure industry with exposure to gain the relevant skills covered.

## TRAINING PATHWAYS

This programme builds on the New Zealand Certificate in Infrastructure Works Level 2, providing further skills for a career in infrastructure.

Once completed, learners can continue on to an available Level 4 infrastructure apprenticeship appropriate to their industry context chosen.
