# NZC Plant Operations

This course is designed to recognise the skills needed to work as a Plant Operator in civil infrastructure.

## WHAT YOU'LL LEARN

This programme covers:

- Following work processes and procedures for plant operations to comply with environmental and quality outcomes.
- Operating plant to complete infrastructure work operations to job specifications.
- Applying health and safety procedures during plant operations on infrastructure worksites.

## HOW THE COURSE IS DELIVERED

On-job assessment through workbooks which are printed and provided to you, or online learning and on-job assessment through the Connexis Learning Management System (LMS). You will receive a login to access the resources.

This programme is also available through the free eLearning mobile app, Totara. With the app, you can quickly and securely access your eLearning programme, courses, and assessment activities through your mobile device.

## ENTRY REQUIREMENTS

The learner must be employed in the infrastructure industry and exposed to the relevant skills covered. The learner must have the appropriate class of driver licence and endorsement for any vehicle being driven.

## TRAINING PATHWAYS

Graduates of this qualification will have proof of their skills that can be applied across a range of infrastructure worksite operations. This qualification can lead to a variety of apprenticeships in Bitumen Surfacing Construction, Civil, Forestry Earthworks, Pipeline Construction & Maintenance, or Piling.
