## **MC** *Temporary Traffic Management (TTM): Assist with TTM within the Road Reserve*

**This course is designed for people working on the road reserve who assist with the installation, operation, maintenance, and uplift of temporary traffic management within the road reserve.**

**It is for people who contribute to team performance and demonstrate safe work practice under the supervision of a temporary traffic management lead or supervisor.**

### **WHAT YOU'LL LEARN**

This course covers the knowledge and skills required to apply temporary traffic management controls when working on the road reserve.

It covers:

- Identifying and understanding common onsite hazards in the temporary traffic management industry and how they cause harm.
- Understanding and using safe practices when assisting with temporary traffic management within the road reserve.
- Using communication methods and skills to relay information to keep vulnerable road users safe.
- Understanding and applying safe practices around approaching traffic, vehicle movements, and vulnerable road users.

Graduates of this micro-credential may be employed in roles working in temporary traffic management static operations in a team under supervision such as a manual traffic controller (MTC) or engaged in temporary traffic management activities.

### **HOW THE COURSE IS DELIVERED**

This course is delivered through a combination of online learning and assessment, and an on-job practical assessment.

Learners are supported by a Customer Service Account Manager and assessor throughout their training.

### **ENTRY REQUIREMENTS**

To enrol for this course, trainees must already work in temporary traffic management, be exposed to the skills covered, and have access to a temporary traffic management worksite to complete on-job practical assessments.

### **TRAINING PATHWAYS**

Graduates who hold this micro-credential will be able to continue their training within temporary traffic management by completing further Level 3 temporary traffic management micro-credentials.

### **WHAT IS A MICRO-CREDENTIAL?**

A micro-credential is a short, NZQA-recognised training course where you can earn between 5-40 credits when successfully completed. Micro-credential courses either lead to a qualification or focus on specialised skills and knowledge that top-up a full qualification certificate, or apprenticeship programme.
